Introducing CleanWater

Ideal for both household and industrial use!

- **ISO Certified**
- **Risk proof your supply chain**
- **Widely used in homes for drinking water and fish tanks**
- **Singapore based ready stocks**
- **Proven in the optics manufacturing industry**
- **Customizable water purification solutions**

We aim to provide affordable and quality water purification products to the world. Based in Singapore, we are a hub for a wide variety of stylish water filters, cartridges and accessories!

Having refined our expertise and products over multiple clients across South East Asia, we are able to offer you high quality affordable sediment, heavy metal and chlorine purification systems.

Our reselling partners are guaranteed a risk proof and consistent supply chain with an in-house tested and issued quality certificate with each shipment.

Tap Filters

A tap filter with food-grade certified 304 steel body that encapsulates a replaceable advanced Carbon Block (CTO) Technology filter cartridge. The double outlet configurations mean you can switch between normal and drinking water easily to extend the life span of the activated carbon cartridge. The box includes a simple screw-in universal adapter to fit any tap.

Filter Housing Type: Food-Grade 304 Steel Tap Filter Body

Filter Type: Carbon Block (CTO)

Filter Material: Activated Carbon

Maximum Temperature: 60 Degrees Celsius

Filter Weight: 500g

American Filter Products (AFP) Dual/Triple Stage Filters

A convenient 02/03 stage filter that can be connected directly to the grid.

A primary filter gets rid of suspended particles while an advanced activated carbon filter removes odours, chlorine and inhibits growth of all bacteria while removing heavy metals. In triple stages filters, an additional tertiary filter of 1 micron ensures the complete removal of any left over suspended particles.

Inlet/Outlet: 1/2 inches

Primary Filter: Microfilter (10/20 inches, 5 micron)

Secondary Filter: Carbon Block (CTO) Cartridge
(10/20 inches)

Tertiary Filter (for 3 stage filters): Microfilter (10/20 inches, 1 micron)

Pressure tested: Certified leak proof up to 100Pa

Certification

✓ ISO-9001 Certified Filter Cartridge ✓ ISO-14001 Certified Filter Cartridge

CleanSupreme Reverse Osmosis Water Purifier

We believe you should be in charge of your water system!

We have developed an efficient reverse osmosis system with easily customizable add-on features.

We follow a 5 step process to deliver the best results to our clients.

- 1) Initial Consultation: We will sit with your technical experts to understand your needs and wants (ex: minimal reject-water wastage, high daily throughput)
- 2) Design Proposal: Based on the feedback we will propose a design that can achieve all your requirements. This would be unique to you!
- 3) Tweak it!: We allow for unlimited modifications until we start the fabrication process. You are in full control of your device!
- 4) Build it-Install it-Commission it!: We make sure the device is up and running in your facility
- 5) Continued support: If you prefer we are at hand To provide continued support for as long as you Need.

Contact Us!

Drop us an email at dil@cleanwatersea.com to get started on a non-obligatory consultation right now! Or Whatsapp/call us at (+65)816338135!
